YOUR INDUSTRIAL COMPUTING, NETWORKING AND SURVEILLANCE EXPERTS

WHAT WE OFFER

Whatever your needs are, our team of experts are ready to help you select the right off the shelf product, customize a standard product or even put together a complete system.

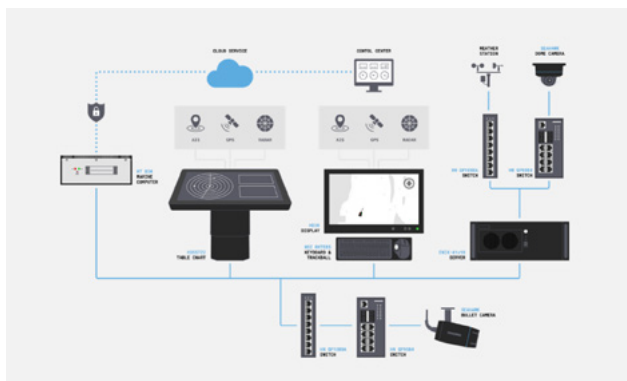

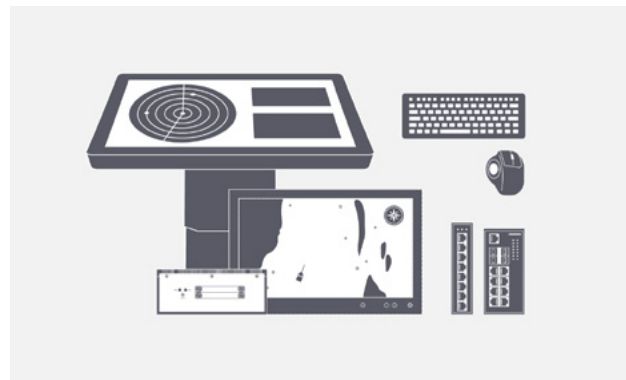

Off the shelf Products

Do you need standard products?

Our experts help you pick the right products and components from our selected partners and make sure they work smoothly together in your solution.

Custom Products

Do you require anything special?

Our experts help you with tailored products or customized standard products to meet your specifications.

Systems & Solutions

Do you want a complete solution designed to your specification?

Our experts can help you build the solution you require complete for your project. Choose from our existing smart solutions or build a tailored solution for your project.

TECHNOLOGY SOLUTIONS

Our offering includes solutions within displays panel PCs, industrial computing, networks, camera & surveillance and software.

Industrial Networking

Hatteland Technology provides a wide range of industrial Ethernet switches with features such as industrial-grade reliability, network redundancy, seamlessly integrated security, and best price-to-performance ratio.

Industrial Computing

Hatteland Technology specializes in providing computer systems for harsh industrial environments and the most demanding conditions. Our expertise and product catalogue spans across the industrial, marine, medical and military sectors, including EX zones and ATEX products.

Display solutions

Hatteland Technology offers a wide variety of display options, including stainless steel frames, touch displays, sunlight readable displays, open frame displays and 1U LCD KVM consoles.

Security and Surveillance

Hatteland Technology offers an extensive range of high-quality security and surveillance applications from public safety and facility monitoring to crime prevention and retail monitoring.

Software

Hatteland Technology offers a variety of software solutions including Airport Trafic Control recording, Video Management Solutions (VMS) for surveillance and Automatic Incident Detection (AID).
