

Subject: Product Change Notice

Product Model: Listed below

Date: October 26, 2006

Page: 1 of 1

Dear Valued Partners,

Please be informed that Realtek is phasing out ALC650 audio codec. Because of this, IBASE will be using ALC655 instead in the IBASE standard products listed below when ALC650 stock is used up (around the end of 2006).

The change to ALC655 will require driver update. See details in the table below. The ALC655 has been approved in some other IBASE standard products.

Phasing Out Part	Replacement	Affected Standard Products *	Driver CD Upgrade
Realtek ALC650	Realtek ALC655	ET800 -R IB890 -R IB880 -R IB850 -R IB840 -R IB781 ** MB892 -R MB890 -R MB850 -R MB845V ** MB840 -R MB820 -R	Ver. 5.3a/b → 5.3c Ver. 5.4: no change Ver. 6.0 & above: no change

* Including all models and versions currently sold.

** These two products will be changed by customer order.

Please write your sales contact for sample approval if required.

Thank you for your continuous support.
